CLC-3 Low Altitude Mobile Air Defense Radar

MD-P00723 · md-clc-3-low-altitude-mobile-air-defense-radar

The CLC-3 is a low altitude, mobile air defense radar that uses phased array and pulse doppler technologies to detect low flying targets such as helicopters and UAVs. The CLC-3 radar can be used as a target designation radar for portable missiles and anti-aircraft artillery. After being connected to

TECHNICAL SPECIFICATIONS
