Electric variable pitch aircraft propeller ZP1870

MD-P00277 · md-electric-variable-pitch-aircraft-propeller-zp1870

ZS1870 electric variable pitch propeller is independently developed and designed by our company. It has completed performance test, structural strength test, 400 hour endurance test and flight test. The propeller is made of carbon fiber material, which has the characteristics of high rigidity, high

TECHNICAL SPECIFICATIONS

Excellent performance	Propeller static thrust 270kgf.
Low noise	Shows small vibration and low noise at 2500 r/min.
Large range of propeller margins	Large range and fast response, suitable for engines in different states.
Blade number	3
Propeller diameter (mm)	1870
Rotation direction	Anti-clockwise
Variable pitch mode	Electric variable pitch
Maximum speed (RPM)	2600
Weight (kg)	14.66
Moment of inertia（kg m²)	0.8
material	Carbon fiber

CERTIFICATION

Certification status is confirmed per order and is not published in the catalogue listing. Request the current declaration, test reports or conformity certificates from our sourcing team.

ORDERING INFORMATION

Model	Electric variable pitch aircraft propeller ZP1870
Part number	MD-P00277
Lead time	30 days
Minimum order	1 unit
Supply	made_to_order

Generated from the UAVSale product catalogue. Figures are manufacturer-supplied and subject to configuration. For the current revision and full documentation set, contact our sourcing team.
