PGZ-09 35mm Self-propelled Artillery

MD-P00556 · md-pgz-09-35mm-self-propelled-artillery

The PGZ-09 self-propelled artillery is a new generation of 35mm self-propelled artillery developed by China. It is mainly responsible for the force field air defense mission. The successful development of the new high-altitude artillery has enabled China to have high maneuvering end air defense capa

TECHNICAL SPECIFICATIONS

Type	Self-propelled anti-aircraft gun
place of origin	People's Republic of China
During service	2009-present
User	People's Republic of China
Developer	Northwest Institute of Mechanical and Electrical Engineering
manufacturer	North China Industry
Production Date	2007 - now
weight	30 metric tons
length	6.7 meters (22 feet)
width	3.2 meters (10 feet)
Number of operators	3 people
Armor	Defense against light weapons shooting and artillery debris
Main weapon	Type 90 (GDF-002, PG99) 35mm self-propelled anti-aircraft gun Hongqi-17 air defense missile
engine	8V150 cooled turbocharged diesel engine 800 hp
Power/weight	22.85 horsepower / ton
suspension	Torque bar
Basic combat itinerary	450 km (280 mi)
Road trip	550 km (340 mi)
speed	55 km/h (34 mph)
Guidance system	Fire control system Laser range finder Infrared goniometer Thermal image tracker Doppler radar Optical sight

CERTIFICATION

Certification status is confirmed per order and is not published in the catalogue listing. Request the current declaration, test reports or conformity certificates from our sourcing team.

ORDERING INFORMATION

Model	PGZ-09 35mm Self-propelled Artillery
Part number	MD-P00556
Lead time	30 days
Minimum order	1 unit
Supply	made_to_order
