Portable Ground Control Station - G2 Series

MD-P00487 · md-portable-ground-control-station-g2-series

The telemetry receiver has multi-band, multi-system, multi-channel, high-dynamic telemetry receiving functions, miniaturization, modularization, flexible function configuration, high reliability, strong comprehensive data processing function, integrated uplink spread spectrum modulation transmission

TECHNICAL SPECIFICATIONS

Product Category	G2 Series Portable Ground Control Station
Code rate (FM)	10-100Mbps
Working frequency band (configurable)	L.S, C, x
Telemetry system (configurable)	FM, BPSK, QPSK.SOQPSK.COFDM
Codec (configurable)	TPC, LDPC, RS, Viterbi
Remote control uplink expansion capability	expandable
Others (configurable)	Diversity Integration, Adaptive Blind Equalization, MSD
Architecture	Portable Rugged Computer
Application areas	UAV, small missile, target drone measurement and control

CERTIFICATION

Certification status is confirmed per order and is not published in the catalogue listing. Request the current declaration, test reports or conformity certificates from our sourcing team.

ORDERING INFORMATION

Model	Portable Ground Control Station - G2 Series
Part number	MD-P00487
Lead time	30 days
Minimum order	1 unit
Supply	made_to_order

Generated from the UAVSale product catalogue. Figures are manufacturer-supplied and subject to configuration. For the current revision and full documentation set, contact our sourcing team.
