Supersonic Target Drone CH-807

MD-P00544 · md-supersonic-target-drone-ch-807

The Rainbow CH-807 supersonic target drone mainly simulates the high-speed flight characteristics and radar scattering characteristics of fourth-generation aircraft and cruise missiles. It can perform tasks such as formation flight, electronic warfare, and the assessment of the attack capability of

TECHNICAL SPECIFICATIONS

Practical ceiling	≤14000m
Combat radius	≤905km
Maximum take-off weight	280kg
Cruising speed	860-1300km/h (238m/s-361m/s)
Maximum flight speed	≤1.6Ma
Endurance time	≤45min
Radar scattering area (RCS)	≥0.01㎡

CERTIFICATION

Certification status is confirmed per order and is not published in the catalogue listing. Request the current declaration, test reports or conformity certificates from our sourcing team.

ORDERING INFORMATION

Model	Supersonic Target Drone CH-807
Part number	MD-P00544
Lead time	30 days
Minimum order	1 unit
Supply	made_to_order

Generated from the UAVSale product catalogue. Figures are manufacturer-supplied and subject to configuration. For the current revision and full documentation set, contact our sourcing team.
