Two Linear Outputs Controller and Electric Steering Gear Integration

MD-P00412 · md-two-linear-outputs-controller-and-electric-steering-gear-integration

The controller is integrated with the steering gear, and the sensor adopts a differential transformer, which has high control accuracy. It can be applied to both missiles and unmanned aerial vehicles.

TECHNICAL SPECIFICATIONS

Maximum output force	600N and 500N
Bandwidth	10Hz
Output axis linear stroke	18mm and 29mm
Zero return accuracy	0.15mm
The quality of a single steering gear system	3Kg and 2Kg (g includes the controller)

CERTIFICATION

Certification status is confirmed per order and is not published in the catalogue listing. Request the current declaration, test reports or conformity certificates from our sourcing team.

ORDERING INFORMATION

Model	Two Linear Outputs Controller and Electric Steering Gear Integration
Part number	MD-P00412
Lead time	30 days
Minimum order	1 unit
Supply	made_to_order
