Universal Networking Data Link-D2 Series

MD-P00486 · md-universal-networking-data-link-d2-series

The data link system can be applied in different scenarios, and can realize networking between 200km over-the-horizon missile (aircraft) and the ground, as well as between missiles and aircraft,

TECHNICAL SPECIFICATIONS

Product Category	D2 Series
Number of networks	32
Communication distance	200km (between missiles/between aircraft)
Communication frequency band	U/L/S/C frequency band optional
Networking time	3s
Network access time	1s
Central node switchable	optional
Application direction	mainly used for target drones, target missiles, combat drones, missile networking coordination and information sharing.

CERTIFICATION

Certification status is confirmed per order and is not published in the catalogue listing. Request the current declaration, test reports or conformity certificates from our sourcing team.

ORDERING INFORMATION

Model	Universal Networking Data Link-D2 Series
Part number	MD-P00486
Lead time	30 days
Minimum order	1 unit
Supply	made_to_order

Generated from the UAVSale product catalogue. Figures are manufacturer-supplied and subject to configuration. For the current revision and full documentation set, contact our sourcing team.
